

FSG Colour Edging Pens

Application

- For opaque dyeing of closed surfaces made of wood, plastic and metal.
- For fast, easy colouring of corners, edges and grooves.
- For painting guide grooves on foil laminated PVC window profiles and doors.
- For indoor and outdoor use.

Characteristics

- Acrylic-based pigmented topcoat.
- Fast drying
- High opacity
- Good adhesion to many lacquer, plastic and metal surfaces.
- Good lightfastness and weathering resistance (with corresponding layer thickness)

Instructions for Use

- Shake for at least 30 sec with closed cap - (mixing balls must be audible)
- Remove the cap. Put the tip on solid ground and press it down (pump) 10-15 times, until it is saturated with colour.
- Wait after initial activation of the tip about 30 sec., so that the tip is fully soaked with lacquer.
- If a pen has not been used for a longer time, replace the tip. The old tip does not ensure optimum paint flow anymore, as it holds sedimentations.
- Test the colour accuracy of FSG-Edging touch-up Pens after the paint is dry (about 2 min. after application).
Important: Close immediately after use – to prevent desiccation!

Technical Data and Shelf Life

Touch-dry:	approx. 1-2 min.
Film strength:	approx. 2-5 min. (values depend on room temperature)
Lightfastness:	good
Weathering resistance:	good
Shelf Life:	min. 2 years (in closed original container and at room temperature)

Safety Precautions and Suggestions

- Highly flammable liquid and vapour.
- Harmful if swallowed.
- Causes serious eye irritation.
- May cause drowsiness or dizziness.
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- Avoid breathing dust / fume / gas / mist / vapours / spray.
- Do not eat, drink or smoke when using this product.
- IF SWALLOWED: Call a POISON CENTER / doctor / ... / if you feel unwell.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Call a POISON CENTER / doctor if you feel unwell.

Extract from the legal texts. More details on the label and safety data sheet.

Storage and Disposal

- Do not allow to enter into surface water or drains.
- Dispose residues of the lacquer corresponding waste code 08 01 11 (Waste paint and varnish, which dispose of organic solvents or other dangerous substances).
- Return empty containers to manufacturer or emptied for material recycling options.
- For more information see safety data sheet or consult the appropriate local waste disposal expert.

Delivery form

- Single pen
- Pack of 5 pens
- Pack of 10 pens
